Terms and Definitions

✓	This entity is involved in the review of this type of proposal.
◆	If the proposal involves an educator preparation program, it must be reviewed by the Council on Teacher Education.
*	If the proposal involves a graduate program, graduate courses or has an impact on graduate education, it must be reviewed by the Graduate College. The Graduate College does not review the J.D. or D.V.M.
RME	Reasonable and Moderate Extension. An RME request consists of a brief description of the proposed changes submitted to IBHE by the Office of the Provost via the Associate Vice President for Academic Affairs. Based on criteria related to program objectives, clientele, and resources, the IBHE staff will determine if the proposed changes are a reasonable and moderate extension of existing program authority.
CIP	Classification of Instructional Programs. A taxonomy developed by the National Center for Educational Statistics where degree programs are categorized using six-digit codes. Repositioning a degree program, such as moving a degree in Music Education from the College of Education to the School of Music, would require a change in the program's CIP.

¹ A "formal award of a degree" means that a formal document is awarded to the student and is a notice that the award has been conferred by a college, university or board of trustees and appears permanently on the student's transcript. Formal awards generally do not include continuing education credits or certificates, certificates of completion, or other forms of recognition issued by departments or individual faculty members, including most "professional development sequences."
